

Akustikbass

Where others already fail the STOLL Acoustic Bass just gets into gear.

Unusual volume and a well-designed interior life make this instrument a specialty in the realm of the acoustic bass.

A precise tone with a powerful force reminds the listener strongly of a double-bass. So it is sometimes called affectionately "the Double Bass to put on."

Whether in a Bossa-Nova duo or in a classic ensemble, whether by the fireside or in the studio, the STOLL Acoustic-Bass serves every purpose.

With this bass you will be seen and heard!
