

Classic Bass

The crossing of acoustic bass and classic guitar brought forth an instrument with a clean, velvety sound that asserts itself brilliantly.

The scale of 75cm with a width of the nut of 42.5mm, a neck-shape of good feel with low string-action and the ergonomic design of the body make for comfortable handling and playability.

Due to the nylon strings it is very well suited as a starter instrument for classic guitarists.

As accompaniment for a mixed classic or a standard guitar ensemble, here the STOLL Classic Bass is the instrument of choice.
