

Alegra

The Alegra stands out through its unusual appearance.

Here Cutaway and McCloud Pickup-Preamp-System are standard. With its flatter profile and lesser width the neck orients itself towards more modern playing techniques. The string-action is purposely held low.

These features open up a wide field of applications. Either Latin-Jazz or Bossa-Nova or simply a straight forward classical use - there is no limit to its versatility.

Of course the Spanish-Neck, the most advanced Neck-Body joint, is a usual standard for this model as well.

Specifications:

BACK/SIDES:	Ovancol
