

Steelstring Ambition

The Spanish-Neck known as the most advanced neck-body-joint in classic lutherie is used as a standard for this steel string model.

This instrument also has a standard neck width of 45mm which can be varied at no extra charge.

Variable as well is the use of the tonewoods. You can choose between Rosewood, Maple, Ovancol, Mahogany and others.

This choice of different tone woods guarantees a wide sound-spectrum in which every musician can find realized his or her own individual listening preferences.
